During some excavations which were in progress at the Tanton Union Workhouse, an old tobacco pipe was dug up, on which was inscribed "John Hunt, 1861." It is an excellent state of preservation, and is supposed to be the oldest specimen of a pipe known to be in existence.

An Obedient Officer.—There is one serious drawback to the enjoyment of the borders of the Japanese country, and that is the intolerable amount of which is continually offered to the eyes of small, the whole of which is carried on the backs of men and horses, to be thrown upon the fields; and if you would avoid the overpowered attention, you must walk barefooted in hand ready to shut out the stench which assails you at every moment.—*Tales of Old Japan.* By A. B. Mitford.

Smuggler's Possession.—An alleged case of poisoning is exciting great attention in Gloucestershire. In January last, an inquest was held respecting the death of a Mrs. Mason, the wife of a physician, said to have been caused by an overdose of laudanum, taken for neuralgia. Suspensions having been excited, Dr. Mason and the medical man who attended the lady were taken before the magistracy, on the 27th Feb. at Newnham, and after a lengthy investigation both the accused were committed for trial.

Texas Dragoon's "Yankee" Expatriation.—"The Rescuer," "Unhappy Ireland" exclaimed the stranger. "Can nothing ever save her from herself? Yes," replied the dragoon. "One thing, and one only, can save Ireland—the rapid revision of the Church laws and the land laws, and a Royal residence, and a Royal resident in the heart of the country. There is no people in the world with a higher sense of loyalty than the Irish. But as surely as there are denied us, so surely will there be a repeal of the Union, or the repeal of the Union, and the repeaters are fast increasing both in power and influence."—*Ireland.* A Tale. By H. Stuart French, author of "Revelations of Irish Life."

Ammonites of America.—American papers state that workmen in Iowa, excavating for the projected Dubuque and Minnesota railroad in the limestone at the foot of a bluff, discovered recently some eggs and rock-enclosed, and on raising a foot slab, a vast field with human skeletons of various sizes, the largest being seven feet high, and the smallest, a few inches. The skeletons belonged to a people who worshipped the luminous; and the representation of a man with a horse stepping out of a boat, as an allusion to a tradition of the Deluge. The fingers of the largest skeleton clasped a pearl ornament, and traces of cloth were found crumpled at the foot of the remains. Heavy copper implements were found, and it is thought that the Lake Superior mines may have been worked at an early period. The remains were to be taken to the Iowa Institute of Arts and Sciences at Dubuque.
